Gulf Islands Secondary School on Salt Springs Island completes installation with Trina Double Glass modules.

Frankensolar is proud to see the fruits of our client's hard work, with our world class products.

None more so than that of a community project, built for a community, by a community and funded by the same community. On January 10th the Gulf Islands Secondary School Salt Springs Island, Vancouver had a formal “Go Live” on their impressive array.

Completed with the [Trina Solar PDG5](#) the installation will benefit from an innovative Double glass structure that is supported by an industry leading 30 Year power output warranty. We want to congratulate the Slat Spring Community Energy Group and all those involved on this resounding success.
