

Connectors and cabling in a PV system are important quality and safety-critical interfaces, which are, unfortunately, often underestimated.

Only by applying quality components, and using accurate tools will the optimum reliability be reached. This will ensure the highest reliability, lowest losses and utmost confidence on your work.

Frankensolar's cables, connectors and Tools are, therefore, proven products manufactured by:

- Rennsteig
- Multi Contact
- Tyco Electronics
- HUBER+SUHNER
- Studer+Leoni
- General Cable
  
- Amphenol
- Weiland
